JOURNAL OF RESEARCH of the National Bureau of Standards
Vol. 87, Nos. 1–6, January–December 1982

INDEX TO VOLUME 87

January-December 1982

A

Absolute isotopic abundance ratios and atomic weight of a reference sample of strontium 1
Absolute isotopic abundance and atomic weight of a reference sample of silver 9
Absolute ratios 1, 9
Absorbed dose 211
Absorbed dose water calorimeter: theory, design, and performance 211
Acceptance probabilities for a sampling procedure based on the mean and an order statistic 485
Acceptance probability 485
Activity coefficients 155, 311
Alkylbenzenez 311
Aluminum oxide 159
Analysis of read-out perturbations seen on an analytical balance with a swinging pan 23
Analytical balance 23
ANOVA (within-between) 377
Approach to peak area estimation 53
Approximation 317
Atomic weight 1, 9, 21
Atomic weight of silver 21

B

Balance dynamics 23
Balance sensitivity 23
Balance suspension 23
Barnes, I.L., Paulsen, P.J., Moore, L.J., and Murphy, T.J., Absolute isotopic abundance ratios and atomic weight of a reference sample of strontium 1
Barnett, P. Darcy, Rehm, Ronald G., and Baum, Howard R., Buoyant convection computed in a vorticity, stream-function formulation 165
Baum, Howard R., Barnett, P. Darcy, and Rehm, Ronald G., Buoyant convection computed in a vorticity, stream-function formulation 165
Bernstein, G., Ditmars, D.A., Ishihara, S., and Chang, S.S., Enthalpy and heat-capacity Standard Reference Material: Synthetic sapphire (α–Al_2O_3) from 10 to 2250 K 159
Bower, V.E., Davis, R.S., Murphy, T.J., Paulsen, P.J., Gramlich, J.W., and Powell, L.J., Recalculation of the Faraday constant due to a new value for the atomic weight of silver 21
Building materials 407
Buoyant convection 165
Buoyant convection computed in a vorticity, stream-function formulation 165
Byrd, R.H. and Goldman, A.J., Minimum-loop realization of degree sequences 75

C

Cage, Marvin E. and Davis, Richard S., An analysis of read-out perturbations seen on an analytical balance with a swinging pan 23
Calculation of aqueous solubility of organic compounds 155
Calorimeter 211
Calorimetry 513
Carino, Nicholas J. and Clifton, James R., Nondestructive evaluation methods for quality acceptance of installed building materials 407
Chang, S.S., Bernstein, G., Ditmars, D.A., and Ishihara, S., Enthalpy and heat-capacity Standard Reference Material: Synthetic sapphire (α–Al_2O_3) from 10 to 2250 K 159
C-H stretching region 237
Clifton, James R. and Carino, Nicholas J., Nondestructive evaluation methods for quality acceptance of installed building materials 407
Clothoids 317
Compliance sampling 485
Components of variance 377
Computer-aided design 317
Concave 71
Concrete 407
Conductivity 257
Consensus values 377
Consensus values and weighting factors 377
Constant loading 47
Convection 211
Convex 71
Cornu-spirals 317
Corundum 159
Coulometer 21
Croarkin, Mary C. and Yang, Grace L., Acceptance probabilities for a sampling procedure based on the mean and an order statistic 485
Croconates 257
Crystallographic 257
Curvature 317
Curve fitting 317
Curve fitting with clothoidal splines 317

D

Davis, Richard S. and Cage, Marvin E., An analysis of read-out perturbations seen on an analytical balance with a swinging pan 23

Page

_____, *Murphy, T.J., Paulsen, P.J., Gramlich, J.W., Powell, L.J., and Bower, V.E.*, Recalculation of the Faraday constant due to a new value for the atomic weight of silver 21
_____, The density determination of small solid objects by a simple float method-II 207
Degree sequence 75
Density 207
Density changes 207
Density determination of a small solid object by a simple float method-I 197
Density determination of small solid objects by a simple float method-II 207
Density measurement 197
Density of solids 207
Design of experiments 377
Difference-frequency laser 237
Ditmars, D.A., Ishihara, S., Chang, S.S., and Bernstein, G., Enthalpy and heat-capacity Standard Reference Material: Synthetic sapphire (α-Al_2O_3) from 10 to 2250 K 159
Doane, Lawrence M. and Fatiadi, Alexander J., Mechanism of the electrical conductivity in potassium croconate violet 257
Domen, Steve R., An absorbed dose water calorimeter: theory, design, and performance 211
Doppler-limited resolution 237
Drop calorimetry 159
Dual acceptance criteria 485

E

Electrical 257
Electrochemical 257
Electrochemical equivalent 21
Electron-atom scattering 49
Electron impact ionization 49
Electron impact ionization of lithium 49
Enthalpy 159
Enthalpy and heat-capacity Standard Reference Material: Synthetic sapphire (α-Al_2O_3) from 10 to 2250 K 159
Errors in variables 67
Ethane 237
Evaluation 407

F

Faraday constant 9, 21
Fatiadi, Alexander J. and Doane, Lawrence M., Mechanism of the electrical conductivity in potassium croconate violet 257
Finite difference computations 165
Fire-enclosure 165
Fixed points 387
Float method 197
Fluid flow 165
Fourier equation 513
Fresnel-integrals 317
Functional 67
Fundamental constants 21
Furukawa, G.T. and Mangum, B.W., Report on the Sixth International Symposium on Temperature 387

G

_____, *Powell, L.J., and Murphy, T.J.*, The absolute isotopic abundance and atomic weight of a reference sample of silver 9
Graph 75
Ground state constants 237

H

Heat capacity 159
Heat defect 211
High precision 47
High temperature 159
Hot wire 279

I

Incidence sequence 75
Inequality 71
Infrared spectrum 237
Inplace testing 407
Inspection 407
Interpolation 317
Ishihara, S., Chang, S.S., Bernstein, G., and Ditmars, D.A., Enthalpy and heat-capacity Standard Reference Material: Synthetic sapphire (α-Al_2O_3) from 10 to 2250 K 159
Isotopic abundances 1, 9

K

Knife-edge bearings 23

L

Lafferty, W.J. and Pine, A.S., Torsional splittings and assignments of the Doppler-limited spectrum of ethane in the C-H stretching region 237
Lanczos smoothing 165
Larger sample, convex 67
Linear models 53
Lithium atom 49
Load cell 47
Loopless graph 75
Low temperature spectrum 237

M

Majorization 71
Mandel, John and Paule, Robert C., Consensus values and weighting factors 377
Mangum, B.W. and Furukawa, G.T., Report on the Sixth International Symposium on Temperature 387

Page

Mass comparator 47
Mass spectrometry 9
Mathematical analysis for radiometric calorimetry of a radiating sphere 513
Mathieu's equation 23
Measurements of the octanol/water partition coefficient by chromatographic methods 311
Mechanism 257
Mechanism of the electrical conductivity in potassium croconate violet 257
Median 71
